Environmental Health Services						
Childhood Lead Poisoning Prevention	Environmental case management services to families of children identified as having above average blood lead levels ($\geq 5 \mu\text{g/dL}$). Includes a wide range of services: mailings, phone consultations, in-home consultations, environmental sampling and analysis, and case coordination and technical assistance with health care providers. Provide on-going analytical capacity to Public Health Centers and other low-income health centers to test for blood lead levels in children.	County-wide	Birth to Age16	1000	Local Hazardous Waste Management Program	\$ 125,000
Child Care Program	Offers county-wide chemical-related technical assistance and trainings to the child care industry. On-site services and technical assistance calls emphasize exposure reduction.	County-wide	Birth to age 12	200	Local Hazardous Waste Management Program	\$ 105,000
Food worker cards issued to people under age 24	Food worker cards are necessary for entry level positions in retail food. Working at a food establishment is a common starter job for many teens and young adults. In-person as well as online classes are offered. Youth groups, younger than working age, often obtain food worker cards as part of youth organization volunteer activities for events. Prevention Division Programs						
Prenatal Hepatitis B Prevention Program (PHBPP)	The Prenatal Hepatitis B Prevention Program's overall goal is to reduce the incidence of hepatitis B in infants born to infected (HBsAg+) mothers. Achievement of this goal involves identifying HBsAg+ pregnant women and their household/sexual contacts and establishing an effective follow-up system to assure that infants born to HBsAg+mothers receive appropriate post-exposure prophylaxis and susceptible contacts receive a three-dose series of hepatitis B vaccine. Appropriate post-exposure prophylaxis for these infants includes hepatitis B immune globulin (HBIG) and hepatitis B vaccine, shortly after birth, followed by two additional doses of vaccine (at one-two months and six months of age).	County-wide, Communicable Disease Immunization Section D Epi (for tracking and reminder), King County birth hospitals (for delivery), and King County providers caring for King County pregnant women and infants	Infants	240	Centers for Disease Control and Prevention (CDC) via Washington State Department of Health Immunization Grant	\$ 100,000
Racial and Ethnic Approaches to Community Health (REACH)	Beginning in April 2011, REACH partners at Sea Mar have started the South Park Soccer Program to get young people 7-8 years old active (they also are getting parents to walk around the field while their children are practicing). They've been working with 40 families. Sea Mar receives \$40,550 from REACH funding.	City of Seattle - South Park	Age 7-8	40	CDC - REACH	\$ 40,500.00
Safe Routes to School (CPPW)	Fifteen schools in CPPW focus communities in S. Seattle and S King County (elementary, middle and high schools) to implement Safe Routes to School (SRts) programs.	S, Seattle and S King County	Age 6-18	7,322	CDC - CPPW	\$ 375,000
School Nutrition (CPPW)	Dietary Guidelines adopted and implemented by the Seattle, Renton, Highline, Auburn and Tukwila school districts, affecting at least 50% of all King County school-age children, and 85% of school-age children in the focus communities	Seattle, Renton, Highline, Kent, and Auburn School Districts	Age 6-18	124,610	CDC - CPPW	\$ 554,246
School Physical Activity (CPPW)	Physical education (PE) curricula adopted and implemented by the Seattle, Auburn and Tukwila school districts, which meet Washington State standards in both quality and quantity (requiring that students are active at least 50% of class time and delivered by teachers trained and certified to teach PE).	Seattle, Auburn and Tukwila	Age 6-18	25,401	CDC - CPPW	\$ 418,980
Childcare Nutrition and Physical Activity Policies - Local (CPPW)	Child care licensing standards for physical activity, nutrition and screen time will be adopted in City of Seattle Human Services Department/Early Learning and Family Services Division, Seattle Parks and Recreation Department, King County Housing Authority (2005/2010 Dietary Guidelines and "Caring for Our Children 2010")	King County	Age 0-5	13,000	CDC - CPPW	\$ 170,822
Childcare Nutrition and Physical Activity - State Regulatory Improvements (CPPW)	Provide technical support and regulatory input to the Washington State Department of Early Learning (DEL) that result in childcare standards that reflect current recommendations (2005/2010 Dietary Guidelines and "Caring for Our Children 2010"). Program/Project	Description	Location of Services	Target Population Age	# Served	Fund Source	Funding Amount
Alternatives to Suspension Project	Contract with the Puget Sound Educational Service District's (PSED) to identify alternatives to suspension that all schools in King County can use as a first-line response to student tobacco use. PSED will also work with schools to coordinate student participation in helping to change the social norms around youth tobacco use. These student groups will help educate their community on the campus tobacco policy and related issues regarding youth tobacco use.	Highline, Kent, Tukwila, Lake Washington, Mercer Island, Snoqualmie Valley, Seattle, and Shoreline School Districts	School aged youth	138,000	CDC - CPPW Grant	\$ 475,000
Tobacco-Free Early Learning Project	Contract with PSED will support each early learning site to change processes and internal policies so that staff will be able to effectively screen for child smoke exposure and family tobacco use and to provide support and resources for tobacco-using parents and staff to help them quit. The goal is to create safe, tobacco-free environments for children. PSED will also work towards development of a tobacco-free workday policy, requiring that staff at early learning sites will be prohibited from using tobacco while at work.	County-wide	Birth to 13	12,000	CDC - CPPW Grant	\$ 185,000
Immigrant and Refugee Community Project	Contract with Refugee Women's Alliance (ReWA) to identify barriers and opportunities in the community that will support immigrant and refugee communities to be tobacco free. They will organize refugee and immigrant youth communities through a grassroots social media campaign coordinated and delivered by participants in ReWA's youth program.	Seattle & South King County	Teens	25	CDC - CPPW Grant	\$ 140,000
Korean Church Community Project	Contract with My Service Mind (MSM) of Northwest to partner with Korean Churches and youth leaders of the church after school programs to support the development of a photo exhibit about the impact of tobacco in the Korean community.	South King County	Teens	20	CDC - CPPW Grant	\$ 80,000
